Have you ever heard of backing off - I don't think so
Still walking towards me when i've already said no
You're wrong here with your sad lies and by the way
with that haircut
Pull yourself together, why can't you just behave?

I know exactly what it is that you want
But I ain't gonna look back
I know exactly what it is that you want
So I'm gonna give it right back

Oh, you know that I've never been one of those boys
So you really think that's gonna happen? - I guess not
When you are begging me to stay I'm already out the
door
Don't burn your fingers, 'cause your playing with this
new thing called
fire

Take a look around you - no one's really listening
Maybe this is your fault, Mister Wannabe
A swagger since the first day, thinking you're a
beauty king
Has nobody ever told you, you suck at faking it

'Cause I know exactly what you think that you need
But it's too late for you to step back
I know exactly what you think that you need
So I'm gonna fuck you right back

CHORUS

Fire, fire, fire, fire...

You'd better lose some weight
You'd better gain some intelligence, ay
Till then you shall not speak
I had the best teacher
When it comes to misbehavior, ay
The truth is set to leak

I know exactly what it is that you want

But I ain't gonna look back
I know exactly what it is that you want
So I'm gonna give it right back

CHORUS 2x
