One plus two is three, that's right
At least there is some intelligence around
I came to think that there are only babies on the planet
Who need their bedtime stories every stupid day

Chorus:

Everybody likes all those rumours
'Bout the great big people with their great big problems
But I don't wanna believe this crap
Because I'm so not interested
While children die in Africa
We read the lies by the media

Why don't you blame the media?
Come on, let's blame the media

Do you know who you are?
Do you think that you're a star?
How pathetic is human life when we all close our eyes?

We don't care about the problems, we just wipe them
away

Repeat chorus

Why don't you blame the media?
Come on, let's blame the media

One plus two is not much, still right
But why can we be so sure and proud?
Taking everything for granted till it's suddenly gone
Blaming those poor strangers for our arrogance

Repeat chorus

Why don't you blame the media?

Repeat chorus

Why don't you blame the media?
Come on, let's blame the media
Come on, let's blame the media

Come on, let's blame the media
