"Cold Dresses"

I live my life forever
I live my dreams come true
If I can't forget,
I wave good-bye to you

Say so long my lover
Say so long my friend
The end is never near
As near as it might seem

Life is motion
And not in motion
No isolation
Justification

Life is motion
And not in motion
But how
Did I know
And how
Did I know
The cold dresses that she wore
That you wore
The cold dresses that she wore

Why did it take some long
For me to understand
I held on, held on too tight
As only lovers can

I wish you all the good, girl
Forget and don't look back
I won't wish that you were gone
'Cause I made sure of that

Life is motion
And not in motion
No isolation
Justification

Life is motion

And not in motion
But how
Did I know
How
Did I know
The cold dresses that she wore
That she wore
The cold dresses that she wore

Life is motion
And not in motion
Life is motion
And not in motion
No isolation
Justification
Life is motion
And not in motion

But how
Did I know
How
Did I know
The cold dresses that you wore
That you wore
The cold dresses that she wore
The cold dresses that you wore
That you wore
The cold dresses that she wore.
