It's yours if you believe  
When your life escapes you like a runaway train  
And the place you come from is a state of pain  
They can lift your spirits high above the pouring rain  
the truth lies waiting in the skye above  
You can sail forever in the presence of  
Way up here you'll meet a greater kind of love

Chorus: You'll go fly with the angels  
Go fly with angels  
Go fly  
On the wings of heaven you will carry love's flame  
Like a voice of mercy you will hear your name  
When the stones of life rock your world  
Just say his name  
Chorus  
There's peace up here in the open sky  
Chorus
