"If You Believe In Miracles"

Visit "[If You Believe In Miracles](#)" on MotoLyrics.com

If you're far
Far from the light
Feel there's no hope
Left in sight
And the answer can't be found
It's no secret
I'm telling you now
Just Hold on
Cuz it's gonna come
If you just pray to the one
Who hears your every cry
Don't give up on life
If you believe in miracles now
We can change the world around
It all begins with one
That's how the battle's won
It's time to believe
And if you need a miracle now
You can change the world around
Have faith enough to see
How great his love can be
It's time to believe
If you're heart is driven by fear
Your road will be short and unclear
Just take what's left inside
His love won't be denied
*Chorus
