If I could give you anything
I'd give you all that you could dream
And I'd try to find a way for you to fly
The beauty in your eyes provides the joy that's in my
life
And I believe in you and everything you do
Cause I have faith in you

And I believe (I) that you can rise (Believe) up high
And I believe (touch the sky) that you can touch the sky
If you believe in it like I believe in you
If you believe it will come true
You can rise up high (Rise up high)
And I believe that you can touch the sky
If you believe in it
Like I believe in you
If you believe
It will come true

Promise me that you will be all that you desire to be
Cause now's the time
So reach for it today
I can see you running vividly
Across the pathway to your star
Fullful your destiny
Show the world that you believe

And I believe that you can rise up high (Rise up high)
And I believe that you can touch the sky (Touch the sky)
If you believe in it like I believe in you (And I believe in
you)
If you believe it will come true
You can rise up high (Rise up high)
And I believe that you can touch the sky
If you believe in it
Like I believe in you
If you believe
It will come true

So if you ever feel all hope is lost
And there's nowhere left to turn

Just remember I will never leave
And I always will be there
I'll be there

And I believe that you can rise up high (Rise up high)
And I believe that you can touch the sky (Touch the sky)
If you believe in it like I believe in you
(I believe in you, so just believe it will come true)
If you believe it will come true
You can rise up high
And I believe that you can touch the sky
If you believe in it
Like I believe in you (Cause I believe in you)
If you believe
It will come true

Cause I believe that I can rise up high
And I believe that I can touch the sky
And I believe that dreams were made for me and you
So believe they will come true
I can rise up high
Cause I believe that I can rise up high
And I believe that I can touch the sky
And I believe that dreams were made for me and you
So believe they will come true
