"Go Slow"

Visit "[Go Slow](#)" on MotoLyrics.com

In the summer time
When the heat is on
I can feel the love
Running down my spine
Honey
And it feels good
The way I feel tonight
If you want my love
Go slow and start this thing right

Go slow
Go slow, start this thing right
Go slow
Go slow, it's got to be right
Go slow
Go slow, start this thing right
Go slow, go slow

I can see your face
In the morning sun
But I still wonder
Could you be the one
And if you wanna be
The only one for me
Then do it right
Let's go slow and start this thing right

Go slow
Go slow, start this thing right
Go slow
Go slow. let's start this thing right
Go slow
Go slow, start this thing right
Go slow, go slow

When I saw you I knew
This love could be true
But now i'm not sure
Oh baby,
Are we going to fast
Let's make this love last

For more than one night

Never thought you would be the type of guy
That would fall for me in one night
Take it slow, show me respect
All that other stuff you need to keep it in check
I'm not the type of girl to move so fast
Don't wanna play no games that don't last
I see temptation in my eye
But I have God in my heart, soul and mind

Go Slow

Go slow
Go slow, start this thing right
Go slow
Go slow, it's got to be right
Go slow
Go slow, start this thing right
Go slow, go slow

Go slow
Go slow, start this thing right
Go slow
Go slow, it's got to be right
Go slow
Go slow, start this thing right
Go slow, go slow
