There was just one at the top of a pile of one million
And she hasn't got a clue that she's become a good
samaritan
I missed her name
Before I blinked from the scene she'd run away
If I got the chance to meet her once again
What would I hear her say

It was just one of those things I needed to deal with
It was just one of those things
It was just one of those things I needed to deal with

There was just one at the top of a pile of one million
And there's no way of counting all I lost
What was I thinking of
As it kicked off I kept myself to myself and looked away
Should've put my foot in but I just stayed wrapped up in
my own world

It was just one of those things I needed to deal with
It was just one of those things
It was just one of those things I needed to deal with

There was just one at the top of a pile of one million
And she will be there for many years to come
Wondering where I am

It was just one of those things I needed to deal with
It was just one of those things
It was just one of those things that I should've dealt
with
It was just one of those things

(This is just one of those things you needed to deal
with)

(This is just one of those things)

(This is just one of those things you needed to deal
with)

(This is just one of those things)

(This is just one of those things you needed to deal

with)
(This is just one of those things you needed to deal
with)
