Never turn back
Never turn back

If you had known
All the tears of sorrow
And you cry out
For a glad tomorrow

Then never turn back
Never turn back again

Your trust in man
May have once been shaken
But faith in man
Must not be forsaken

So never turn back
Never turn back again

Lokk up at the sky
Hold your head up high
And make a wish on
A star or above

If you have hope in your heart
Time will heal every scar
And soon, you'll know
Laughter and love

Though now you walk
Empty dreams inside you
Have faith, have faith
And your heart will guide you

And never turn back
You'll never turn back
Never, no, never turn back

Never turn back
No, never turn back
