

## Al Sirat "System Of Values"

Visit "[System Of Values](#)" on [MotoLyrics.com](#)

The morbid laughing is taking me over,  
I'm madly loosing foam from my mouth  
My past thirst today my killer is,  
Today my "Lord" is laughin' at my pain!

[Pre-Chorus]

And the vision of the power disappeared,  
Has falled as the house of cards...  
My synthetic system of values!  
My great self!  
But I still remember my dream -  
Power and Might!  
I dropped the chain of the sin,  
I choose the Night!  
Today in the hour of the death I'm all alone!  
Where is the one, who took over my mind,  
Where is my "Lord"?!

[Chorus:]

The deadly cold is penetrating me,  
My hope has gone, I'm falling asleep,  
But I will never, ever dream...

[Solo: Cola]

[Solo: SINGiel]

I thought I found the answers for all the questions,  
I thought: "I am the chosen one, the chosen one!"  
When you denied my faith, I splat it in your face,  
I knew all!  
My pride gave me the key, to all I really needed,  
My heart was cold, just as I am now!

[Repeat pre-Chorus]

[Repeat Chorus]

[Fading solo: SINGiel /Andy LaBomb]
