"Without You"

Visit "[Without You](#)" on MotoLyrics.com

Without you, how did I live like this?
How did I live without you?
Without you, how did I live like this?
How did I live without you?
With your memories, my nights passed - 2
The moonlight talks to me about you
My nights are lonely with out you
My days aren't like days
Lonely body, lonely soul, my eyes stay wet
Come by me now
I Don't want to live without you Without you, how did I live like this?
How did I live without you?
Without you, how did I live like this?
How did I live without you?
Since when are my eyes layed in your path?
Atleast let me meet you somewhere accidently
I can't forget your words
My eyes are wet every second
Why should I breath? Why should I live?
Living feels bad
Why did you become unfaithful, tell me the reason
Without you, how did I live like this?
How did I live without you...
Without you, how did I live like this?
How did I live without you...
