Last night it came upon me  
Got the blues upon sunrise  
As I reached to touch your shoulder,  
I was struck by the surprise

You packed up your belongings  
Stole away into the night  
Nary a sign is left of you here  
Guess I'll lay back down and cry

\*chorus\* Why do they always leave me?  
Happens just about every time  
And I can feel you haunting  
Through the back pitch of my mind

There's never been any reason  
Never been no way to explain  
Seems that luck is out of season...  
Unless it's bad, then down it rains

Growing colder by the minute  
Getting hardened by the day  
I'm a lonely, loathsome creature  
But I don't want to be that way

\*chorus\* A bitter wind chills me to the bone  
The bottle is dry and I feel so alone

This house is so empty now that you're gone  
And I face the fact that I've done you wrong, yeah

Now I'm sure that you had to leave me,  
To save yourself and your sanity  
You'll find another, and I pray he's good to you  
Better than I could ever be

Hope you find just what you need, as I lay right here  
and bleed  
Together we will never be!  
Through my soul a stormy rain, wrapped up in my old  
friend pain, forever!  
It's my destiny

Sometimes I think I know the way  
But find myself in a strange land  
Where I don't know my name

Left to the dogs, hung out to dry  
Wish I could lay right down and die  
I'm tryin', but life's not done with me!

Bye bye, bye bye baby!
