This ghost screen, gods mysteries  
Semi-automatic on a lunatic spree  
Plagued by birth, flase of the earth  
Castigate the falsifier? lets?  
Sins of the father, broken by man  
Voices exhorting, back of the plan  
Taking no hostage, open fire!  
Duck tape dread, the living dead  
Execution stlye to the back of the head  
Life scene file mother and child  
Evil assailants? while showing mercy on no one and  
none shall survive  
How many times can a childhood be blamed for his  
actions could try  
God went away  
Specters arriving to expropriate  
Sin of the father, broken by man  
Voices exhorting, back of the plan  
Taking no hostage, open fire!  
Adversary of Abadon  
Black race ends defied  
Ripped throat? heavy on  
Accepting angels minds  
Chicken with the succubus  
Can't see hells up rise  
Blood stains the streets of I'll desire  
Assassins aim and open fire!  
Dispatching penalty  
Brick space goes in bulls  
Inverting crucifix  
Tapped twod upon their souls  
Hag woman capalaid  
Act now to achieve their fate  
Waiting for just a taste  
From lord Satan's place  
To buy the prize you sold your soul  
Care on awaits the fairy told  
Blood stains the streets of I'll desire  
Assassins aim and open fire!  
Wow!
