We never spoke a word  
But every thought she had I heard from across the room  
We were standing face to face  
I couldn't find the words to say  
Gimme one more move

I don't even know her name  
I guess foolish pride's to blame

## Chorus

Now I'm falling in love as she's walking away  
And my heart won't tell my mind  
To tell my mouth what it should say  
I may have lost this battle  
Live to fight another day  
Now I'm falling in love as she's walking away

Wise man next to me did say about the one that got away  
Son, I missed my chance  
Don't you let regret take place of the dreams you have to chase  
Ask her to dance, go on, son  
You might fall down on your face  
Roll the dice and have some faith

## Chorus

You might fall down on your face  
Roll the dice and have some faith

## Chorus

Don't be falling in love as she's walking away  
When your heart won't tell your mind  
To tell your mouth what it should say  
May have lost this battle, live to fight another day  
Don't be falling, falling in, falling in love as she's walking away
