It's twilight and the streets light are coming on
I'm in a stream of cars on this boulevard, headed home
And I can hardly wait you can make what went wrong
today
Seam right it's been a long hard day so bring on the
night

Bring on the night and pull down the shades
Lock the world outside and throw the key away
And turn on the feelings and turn out the lights
Lets call it a day and bring on the night

From 9 to 5 it's the same old grind all week long
And the only thing that keeps sane, is coming home
When the sun goes down you know how to set things
right
Lets put the day behind us and bring on the night

Bring on the night and pull down the shades
Lock the world out side and throw the key away
And turn on the feelings and turn out the lights
Let's call it a day and bring on the night
Let's call it a day and bring on the night
