When I look into your soft green eyes
And when I see your delicate body
Revealed to me as you slip off your dress
I'm reminded that what I feel for you
Will remain strong and true
Long after the pleasures of the flesh

And I'll go on loving you
I'll go on loving you
I'll go on loving you

And be it the wind or the rain
Or the moon up in the sky
The spin of the earth or the changes in the tide
I don't know what brought us together
What strange forces of nature
Conspire to construct the present from the past

But I'll go on loving you
I'll go on loving you
I'll go on loving you

When I look into your soft green eyes
And when I see your delicate body
Revealed to me as you slip off your dress
I'm reminded that what I feel for you
Will remain strong and true
Long after the pleasures of the flesh

And I'll go on loving you
I'll go on loving you
I'll go on loving you
I'll go on loving you
