Its All About Him  
Alan Jackson

You Ask If Im Happy,  
Its Easy To See  
Im High On A Mountain  
the world at my feet  
all of the reasons  
i should feel free  
come and look closer  
its not about me

CHORUS  
its all about him  
and the love that he gives  
redemption and hope  
for all who have sinned  
you can walk all alone, never find your way home  
till you see deep within  
its all about him

its not about ego  
or things you can hold  
its not about power, or silver, or gold  
not whos at your table  
or where you lay down  
its not about spreadin you wings on the ground.

[CHORUS]

so look in the mirror  
and look at your life  
it may seem perfect, but just dont feel right  
lay down your fences, and let the love in  
right there beside you, its all about him

[CHORUS X2]

just let his love in  
its all about him

[X2]

its all about him

let his love in

its all about him

its all about him

let his love in

right there beside you

let his love in

its all about him

oh redemption and hope

its all about him

its all about him

let his love in

its all about him

its all about him

let his love in

its all about him

its all about him

let his love in

its all about him
