Laid back'n Low Key

You and me on that white powered beach

Side by side with the sand and the sea

Laid back'n Low Key

Gentle roar of the wave on the shore

Makes its way through the crack 'neath the door

Wake up call from the ocean floor

Down in Avid Cove

We're laid back'n Low Key

You and me on that white powered beach

Side by side with the sand and the sea

Laid back'n Low Key

Tequila Sunrise with a coconut base

Hammock swinging in the palm tree shade

Standard Island beach resort cliche©

Hey, but that's okay

We're laid back'n Low Key

You and me on that white powered beach

Side by side with the sand and the sea

Laid back'n Low Key

Wind blowing on the back of my neck

Sun reflecting off that tan on your breast

Found that feeling that we lost long ago

Down in Avid Cove

We're laid back'n Low Key

You and me on that white powered beach

Side by side with the sand and the sea

Laid back'n Low Key

We're laid back'n Low Key

You and me on that white powered beach

Side by side with the sand and the sea

Laid back'n Low Key
