Well I've been wonderin' what I've been missin' I guess
I should have known
But my heart does and it ain't whisperin' it tells me just
what it wants
Someone who knows what I like in my coffee and the
shape of my ol' hat
A lover who always looks at me not through me I need a
love like that
I need a love like that I could use a little sun on my back
A truck needs a highway a train needs a track I need a
love like that

Well I need a new car but I can't afford it so I keep
patchin' that ol' flat
My heart's lonely and I can't ignore it I need a love like
that
Yeah I need a love like that...
[mandolin - steel]
Two young people dancing in the daylight they don't
care where they're at
Waitin' on sunset a holdin' on so tight I need a love like
that
Yeah I need a love like that...

One little baby a hidin' in the shadow of her daddy's
hat
Lovin' and trustin' blindly she'll follow I need a love like
that
Yeah I need a love like that...
Yeah a truck needs a highway a train needs a track and
I need a love like that
