I'm usually strong, keep love far away  
A wall round my heart so it won't have to break  
But you take me some place that I've never been  
And I don't know if I'll find my way back again

Cos you've got me right where I want you  
And there's not a thing I can do  
Completely consumed, all about you  
You've got me right where I want you

When I close my eyes you're looking at me  
You wake me at night walking round in my dreams  
The wind blows the smell of the roses in bloom  
And all I can think of is last night's perfume  
Cos you've got me right where I want you  
And there's not a thing I can do  
Completely consumed, all about you  
You've got me right where I want you

And I never thought that I would get caught  
But here I am wrapped up in you

Cos you've got me right where I want you  
And there's not a thing I can do  
Completely consumed, all about you  
You've got me right where  
You've got me right where  
You've got me right where I want you
