Well I'm ready to raise the blinds in this place think I'll
rejoin the human race
You said yes now you're wearing my ring guess I can
stop playin' ol' BB King
Cause the thrill is back the heartache's gone time
stands still baby love lives on
The room spins around when you're kissing me the
thrill is back like it used to be
[fiddle]
I sure could use a haircut and shave now that I'm
crawling outta my cave
Since you said we were through I've been down with a
case of the blues
But the thrill is back...

I think I'd better give my doctor a call
And tell him I won't need that Prozac after all
Cause the thrill is back...
[guitar - fiddle]
Yeah the thrill is back...
The room spins around when you're kissing me the
thrill is back like it used to be
