Let me make it up with love (Mmmmmmm)

[verse 1:]

So you say you need your space;  
You say you need to get away;  
I'm proud of you.  
But girl can't recognize game;  
I know what you're going through,  
Oohh yeahhh.  
You're feeling frustrated;  
I ain't been spending time lately;  
Your body needs attention that I ain't been giving.  
That's my bad, don't leave...

[chorus:]

Let me make it up with love;  
Lay your body down;  
Baby let me work it out.  
Making love will change your mind;  
Everything is fine;  
I put my name on it,  
Sign it on the dotted line.  
All night, hit you with this love;  
Let me make it right;  
Let me make it up with love...

[verse 2:]

You know you like it when I touch you there;  
Let me show you I care, before you leave.  
Let me be your counselor , your comforter,  
Your doctor, your remedy. Oohh yeahh.  
Girl I know what you been needing;  
Your body needs sexual healing.  
And I'm here; I can make it right if you just let me.  
Don't leave... yeah...

[chorus]

[bridge:]

Listen baby;  
Baby when it's all said and done,  
You and me will be as one.

We can lay in love;  
No no no no rushing, rushing.  
And girl I'm putting this on everything;  
You aint gotta leave...

[chorus]

[hook:]  
Baby I can make it right;  
Just one night;  
Let me lay you down,  
I can make it, make it.

Girl, I'm glad you want it;  
So lay your body down.  
Baby you can have it;  
Let's make it right.

Baby I can a make it right;  
Just one night;  
Let me lay you down,  
I can make it make it.  
Let me lay you down,  
I can make it make it...

[chorus till fade]
