People hold on, ouh ouh, people hold on, ouh ouh  
People hold on, ouh ouh, don't do yourself wrong.  
People hold on, ouh ouh, we got to be strong. People  
hold on!

Everybody's looking for a meaning, everybody's doing  
their own thing.  
And nobody's solving the problem, ain't nobody  
helping each other.  
Some people give into fear, some people give into  
hunger.  
Some people live for the future and some of us  
wonder.  
Giving into life, giving into love, maybe there's enough  
for everyone.  
Giving into hope and into trust, maybe there's enough  
for everyone.

People hold on, ouh ouh, don't do yourself wrong.  
People hold on, ouh ouh, we got to be strong.  
People hold on, ouh ouh, don't do yourself wrong.  
People hold on, hold on, we got to be strong.  
People hold on! People hold on!

Everybody's getting frustrated, why should we live with  
this hatred?  
We're all dancing in a thin line, they're making out,  
we're having good time.  
So who's gonna give us the answer? Ouh ouh, sisters &  
brothers.  
So who's gonna give us the answer? Ouh ouh, sisters &  
brothers.

People hold on, ouh ouh, don't do yourself wrong.  
People hold on, ouh ouh, we got to be strong.  
People hold on, ouh ouh, don't do yourself wrong.  
People hold on, hold on, we got to be strong. People  
hold on!
