I see my friend You need a friend To care for you
And be there for you Till you're on your feet again

To be your friend through thick and thin
To understand lend a helping hand
That's the least that I can do for you

Now anytime you've got a problem
I'll be there to help you solve 'em You know oh
When you've got a friend by your side
You're not alone And you know that
When you're feelin' brokenhearted
I'll be there to get you started again my friend
You know I care so I'll be there
Now until the end of time
Cause you're a friend Friend of mine

A friend in need, a friend indeed
I'll be the one you depend upon
You can always count on me

And win or lose I'll stick by you
I'll try my best put me to the test
And I'll prove the rest is true for you

Now anytime you've got a problem
I'll be there to help you solve 'em You know oh
When you've got a friend by your side
You're not alone And you know that
When you're feelin' brokenhearted
I'll be there to get you started again my friend
You know I care so I'll be there
Now until the end of time
Cause you're a friend Friend of mine

Now anytime you've got a problem
I'll be there to help you solve 'em You know oh
When you've got a friend by your side
You're not alone And you know that
When you're feelin' brokenhearted
I'll be there to get you started again my friend
You know I care so I'll be there

Now until the end of time
Cause you're a friend Friend of mine
