Come on!

Verse 1

Let me hear ya rock now, clap your hands

Let me hear ya get down; bounce your head

Let me hear ya do it if you understand

Let me hear ya get loud

Because we're gonna win

We're on fire; when its time you can just let go

We won't stop, we're on top,  
and we're about to explode

Chorus

When the light hits the field and the game  
on the line

You'll know its for real when the Falcons fly

We can't hide from the enemy, hot like a fire

You'll know it's for real when the Falcons fly

Come on, fight and don't stop, take flight

If you're ready to run, come on fight and don't stop

Verse 1

Chorus (x2)

Come on!

Come on, fight!

Come on!

Come on, fight!
