Please be philosophical
Please be tapped into your feminity
Please be able to take the wheel from me
Please be crazy and curious

Papa love your princess so that she will find
Loving princes familiar
Papa cry for your princess so that she will find
Gentle princes familiar

Please be a sexaholic
Please be unpredictably miserable
Please be self absorbed much (Not the good kind)
Please be addicted to some substance

Papa listen to your princess so that she will find
Attentive princes familiar
Papa hear your princess so that she will find
Curious princes familiar

Please be the jerk of my knee I've fit you always
You finish my sentences, I think I love you
What is your name again?
No matter, I'm guessing your thoughts again
Correctly and I love the way
You press my buttons so much sometimes I could
strangle you

Papa laugh with your princess so that she will find
Funny princes familiar
Papa respect your princess so that she will find
Respectful princes familiar
Papa love your princess so that she will find
Loving princes familiar
Papa cry for your princess so that she will find
Gentle princes familiar

Please be strangely enigmatic...
