I'm lookin' for someone who can made me feel
A serious love like Juliet's is real
A little impulsive and a boy at heart
A little bit shy but he'll be oh so smart

Superman, I need a Superman

You got a complicated girl like me
He's gotta be fair and treat me properly, yeah
I want him to understand equality

You gotta keep searchin' everywhere in the world
You gotta keep lookin' or you'll miss the feelin'

You gotta be tough to make it today woo
You do it your way and not how they say
You'll find him somewhere

You gotta be tough to make it today woo
And never be scared of finding your way
To Superman

Should I call him on the telephone?
Should I go seem him or just stay at home?
Will he be different from the other boys
If I could find him I'd be overjoyed

Superman where are you Superman?

Whenever it seems like everything's on the line
You gotta keep lookin' or you'll miss the feelin'

You gotta be tough to make it today woo
You do it your way and not how they say
You'll find him somewhere

You gotta be tough to make it today woo
And never be scared of finding your way
To Superman

Now you gotta be tough to make it today woo
And never be scared of finding your way

To Superman

With all the other boys I never knew
What it took to make a choice
When he's mine I'm gonna stop
All my changin' around now

Between the two of us there'll be
Enough goin' on that's serious
I can't wait 'til I can stop
All my lookin' around now

I found my Superman I found my Superman

Whenever it seems like everything's on the line
You gotta keep lookin' or you'll miss the feelin'

You gotta be tough to make it today woo
You do it your way and not how they say
You'll find him somewhere

You gotta be tough to make it today woo
And never be scared of finding your way
To Superman

You gotta be tough to make it today woo
You do it your way and not how they say
You'll find him somewhere

You gotta be tough to make it today woo
And never be scared of finding your way
To Superman

You gotta be tough to make it today woo
You do it your way and not how they say

You gotta be tough to make it today woo
And never be scared of finding your way
To Superman
