# "Subject To Change"

A process of learning  
Taking time  
The ever changing nature of life

We belong to events in our world  
Impermanent never still  
Unfolding ones own

Our home

Karmic choice, constantly

All things under influence  
Subject to change

Nothing to remain the same

Action is phrased movement is made  
To be of a substance  
Reliving day thought uniting

We belong to events in our world  
Permanent never still  
Turning it over in time

Karmic voice, listening
