Seeping inside, corruption injection  
My sinister cure, for your imagined infection  
Guilty pleasures, the key to your soul  
Innocence betrayed, my toy for the taking

Blessed to decide, a burden of life  
Believe as you do, that I am good  
Deceived as you come, trust in my word  
The demon and I, we will make good

[Chorus:]

Do as we say, my precious tool  
As we command, enraptured you stand  
Move as our hands, our power on earth  
Question us not, for we are holy words

Lies and sedition  
Terrify, deify  
Inspiration of chaos  
The visage of a holy sight

Mirage, entropy  
A fatal flaw in communication  
Sell your soul to buy protection  
Alas, eternal night

[Chorus]

Lost in the forest of deceit  
Trapped in a world of reduction  
Wandering forever in a tide of despair  
Lost in the caverns of the soul
