Words have left us all alone and somethings come
between us to turn the fire cold
Thoughts that chase you
in the night silently the storm
the life from in your
eyes and i remain alone, no matter who may try and
take your place oh no
Chorus.. And I'll remember you
the dreams we could of dreamed
the tears I should have
seen we use to say forever
but i'll remember you
your pure and simple heart
your shadows painted dark
I will always love you
I'll remember you
Summer rain to fallen
snow
We knew that it would last
but there's no way to
know it's such a storm that's in the sky
quietly will pass,
quietly we'll cry
and here I stand
with every promise
melted through my hands
And i'll remember you
the dreams we could of dreamed
the tears i should have
seen
We use to say forever
But i'll remember you
your pure and simple heart
your shadows painted dark
I will always love you
I'll remember you
Oh and i remain alone
no matter who may try and take your place
And i'll remember you
the dreams we could have dreamed
the tears I should have seen
we use to say forever
but i'll remember you
Your pure and simple heart
your shadows painted dark
I will always love you
I'll remember you
Repeat I'll remember you
I'll remember you
...To my special someone.. you're always in my heart..
