Unholiness, I am the one
A descent into darkness, to gather all wise on me
My presence will poison, I'll be armored with hate
inside
No life itself limit, is offered now to me
A. Life Ethereal, a shadow opens inside
A. It's there always. Beyond my unconscious deep

Oh, I feel a darkforce inside my inner self
your teaches are not easy to learn and
I know there's no turning back for becoming the master
of the night side
My time has come to raise a fist for hail

I know with this on my own I'll rule this world
Resurrection of my evil side oppresses my chest inside
out
I have realized I'm chosen to become powerful servant
Because I feel your seed of hate on me

A. It ist beyond my unconscious deep

Alastor spawned his fury and lowered his lightning fist
above

the entire weak humanity. He, who destroyed all their
gods
of pale and illness, now becomes the master of all
reigns;
lust, pain, fear and fright rule everywhere because his
presence
inhabits every part of our hearts, of humanity, every
time...

With the power gathered on me, I evoke the Nordic
winds
to create the most beautiful gray in the day and most
cold in the night.

I sing the ninth chant for thy glory, casting the spell of
sickness,
I've gone through my unconscious and I've found your

mist,
here inside of me.

I've carried the most glorious and I'm the one gone
beyond
the gate you offered for my eternity. All Wizard's Lord.
(Inspired from Dead, Mayhem. RIP)
