O. Light of my Lord, please surround me
get me into the presence of Evil
Vampires and Gargoyles creatures with wings
Worship your Master, worship him!
Incubus rising from the flame of Satan
This fire must burn again
The winds from thy wings are cold
The wind cold as ice as your breath.

Lord Baphomet, Lord Leviathan
Lord Belial, Lord Sathanas
Immerse the glory, grant me his orb
Lord Lucifer, Emperor of Skies.

I. Women pregnant from the Goat Lord Demon
more servants for thy glory
How I ride thee through the spaces
How am I worthy to be

I'll do write your wings infinity
Let me profane what's not for you
We who were created to serve thee
I'll do write the infinity of thy wings

Lord Adramelekch, Lord Alastis
Lord Astarte, Lord Sathanas
Immerse the glory, grant me his orb
Lord Lucifer, Emperor of Skies.

Master Lucifer Beholder and guardian
Dragon Lord Fallen angel
Father of lights Air's reptile
Thy secrets won't be shown as there's pain in our eyes

The infinity of thy wings, Faustian for your desire,
Lucifer.
The infinity of thy wings, involve this world. A. Luzbel.
