All in the name of love
All in the name of something beautiful
All in the name of love
All in the name of something beautiful

We don't even act like strangers
Seems we've been knowing each other for a long time
And every time that we've seen each other
We've come up with some reason to stay apart

But baby, love is in your eyes
Baby, let's make the compromise

I'll be your cover in the wintertime
Any reason, any season, I'll be satisfied
Long as I'm here with you

You'll be my cool in the summertime
Any reason, any season, you are on my side
Whatever I'm into

Can't you feel the magnetism between us?
Growing stronger and stronger
So why don't we do it?

All in the name of love
All in the name of something beautiful
All in the name of love
All in the name of something beautiful

There ain't no doubt about this feeling
Yeah, it's obvious my search will end with you
And I can tell by your facial expression
That you have the same attraction for me too

But baby, come on let's take the ride
We're destined straight for paradise

And I'll be your cover in the wintertime
Any reason, any season, I'll be satisfied
Long as I'm here with you

You'll be my cool in the summertime
Any reason, any season, you are on my side
Whatever I'm into

Can't you feel the magnetism between us?
Growing stronger and stronger
So why don't we do it?

All in the name of love
All in the name of something beautiful
All in the name of love
All in the name of something beautiful
All in the name of love

Oh baby, that's what I'm gonna do, listen to me, baby
You and me, we're overdue for getting together, baby
It always seemed our love was meant to be

All in the name of love
All in the name of something beautiful
All in the name of love
All in the name of something beautiful
