Words have left us all alone
And something's come between us
To turn the fire cold
Thoughts that chase you in the night

Silently the storm
The life from in your eyes
And I remain alone, no matter
Who may try and take your place

And I'll remember you
The dreams we could of dreamed
The tears I should have seen
We used to say forever

But I'll remember you
Your pure and simple heart
Your shadows painted dark
I will always love you
I'll remember you

Summer rain to fallen snow
We knew that it would last
But there's no way to know
It's such a storm that's in the sky

Quietly will pass, quietly we'll cry
And here I stand, alone with every promise
Melted through my hands

And I'll remember you
The dreams we could of dreamed
The tears I should have seen
We used to say forever

But I'll remember you
Your pure and simple heart
Your shadows painted dark
I will always love you
I'll remember you

Oh, and I remain alone

No matter who may try and take your place

And I'll remember you
The dreams we could of dreamed
The tears I should have seen
We used to say forever

But I'll remember you
Your pure and simple heart
Your shadows painted dark
I will always love you
I'll remember you

And I'll remember you
The dreams we could of dreamed
The tears I should have seen
We used to say forever

But I'll remember you
Your pure and simple heart
Your shadows painted dark
I will always love you
I'll remember you

I'll remember you
I'll remember you
