But your heart can't account for
Your heart can't account for these words
Your heart can't account for
Your heart can't account for these words

I'll trail off
You said let it go
I'll trail off
You said
Trail off
You said
Trail off
You said

But your heart can't account for
Your heart can't account for these words
But your heart can't account for
Your heart can't account for the words

Awake long enough to hear you breathe out
Is this what you wanted for me?
Is this what you wanted for me?
For me?

Without me
Your heart cant account for
Your heart can't account for (for me) these words
Your heart can't account for
Your heart can't account for (for me) for me
