i met a girl, she had a tail - and some horns and it
really turned me on - it's plain to see - it paints a picture
- of me and her miserably ever after -- i know you're
bad for me - you make me sing with the devil's
symphony - the way you move, well it rings hell's bells -
love with you is hotter than hell -- dressed to kill, all in
red - the devil's daughter's got me burnin' down the
bed - the fantasy's reality 'cuz she don't give attitude
and she's always in the mood -- chorus -- your love's
like a razor - slicing me open - leavin' me bleeding, and
i can hear you laughin' - i'm naked like jesus - nailed to
the cross and - just hangin' around - for me to die -- red
on the head, fire in the hole - the devil's daughter's got
me selling out my soul - the pharmacy's got no cure for
me - i got it bad with the devil's std
