you live on my block, i know you've been around it - still
i'm in shock (that girl's a whore - sorta like a hooker
with no class) - but dude, she's hot! -- you're killing me
with your history - loaded and cocked with your sights
on me - when i see you walk, it's hard to breathe - when
i hear you talk, you put a spell on me - i'm not your first,
is that so wrong - way down the list where i belong -
you've no idea what you do to me - i know it's wrong,
but what's wrong with me? -- in study hall, they've got a
name for you (SLUT!) - on the bathroom wall (for a
good time call) - you know where this is goin',
don't'cha?
