i feel all used and tossed aside - like a rubber on a
loveless night - a warm body for you to hold - i feel just
like your sex toy - 'cuz i'm in the drawer for weeks at
times - and then you use me to make you smile - and
all those times, i guess you lied - when you said you
loved me -- so go to hell, hope you enjoy the ride - i'm
such a chump for all those tears i cried - are ya doin'
fine 'cuz i hope you die - a slow and painful death, it'd
make me smile -- now you act like nothin's changed -
do you get off messin' with my brain? - sure i'm actin'
like a child - but at least i can make up my mind - so
fuck you and all your friends - i'll make fun of you and
them - i'll sit around and drink some brews - and talk
about your mother -- chorus --'cuz it's love, and it's hate
- i got that hate and love thing for you, baby, but right
now - hate's kickin' love's ass - out the door, out the
door, out the door, out the door -- chorus -- i hope you
die...
