Spoken: Yo this is dedicated, to this girl that I dated
Complicated maze, Complicated maze

[Verse 1]

At first sight, only a stranger to my eyes, couldn't keep
them off,

I'm sure your friend recognized, I didn't care, I had to
stare, stood there at attention

Not many words mentioned still I felt the thought
connection, wanted sex then

Got to know you wanted more, Things got complex
when

You had a man that wasn't sure

My thoughts were pure, Is it gonna be him? Or is gonna
be me?

Cause that's the way I have to have it

Grasp the idea, Ms scribble head Talia

Wanted you to feature but your man is screwing up the
procedure

What is it that you say? I'm on your mind all day

But still say you're content, how the situation lay

Why you play? Why do you stay? There's something
better

Know you felt it when you received my first poetic letter

Why you fronting? Tell me something

Is it that you want your cake and stuff it down your face
too?

Did I have to chase you?

Why oh why do you cry?

Said of afraid of losing me I think that you're confusing
me a lot

No wait a minute stop, bring that back I missed a page

Was it that time of the month or were you going
through a phase?

[Chorus - repeat 2X]

Complicated maze. This phrase fits you perfect
Come back in later days. Talk to me when you're
certain

You're always changing up. Never stay the same
person

Come back in later days. Talk to me when you're

certain

[Verse 2]

Miss Merry weather, the partial, the martial artist of
fake imitation love products
Now facing you is irritation
Know you used to have me placing you on pedestals
like a goddess
Personality changes it seemed to be to me you were
the oddest
Soon to depart us like red seas by Moses
Our friendship's diseased, unfeasible, hopeless
No reasonable answers to my question of focus,
Caused my tension
Nothing made sense when you replied with a tied
tongue
Said you feared abusiveness, I never swung

Why all of these excuses miss? What have I done?
Figured I had the right kind of lady, yeah maybe it was
fun, for you
But not for me, I found it quite unamusing
You were using me as a bridge just to pass what was
left behind
Play times for dangerous minds, but why'd it have to be
mine?
Why'd it have to be mine?

[Slug - speaking]

Now I'm not really trying to come off abrasive
but why you messing with my mans head?
I mean I'm spending time trying to keep his mind on
rhymes and beats
and you're a distraction. I mean you got my man just
shook
I mean honestly I guess what I'm trying to say is...

[Chorus]

Virgin torn from sleep, the newborn
(*Slug speaking* 'Why are you doing this? See you're
too old to be playing games')
And it was easy to get too deep, the water was
lukewarm

Virgin torn from sleep, the newborn
(*Slug speaking* 'you wanna come back?')
And it was easy to get too deep, the water was
lukewarm

[Verse 3]

Do you know what today is?
It's the third anniversary, you came back to flirt with me
For certain, you must mistake me for a fool
See I know how you are, I see those tricks in you
Tried to make amends, there's something new
Had problems with your friend, so it's me you always
run to
Come to, and smell the coffee, no drink the pot with
extra caffeine
Cause next to acting you win awards for cloudy vision
Tired of fishing for the what, why and when
Will this repetition end, step away and give me oxygen
Not interested in talking, say nothing keep walking go
bout your away
See the colors of these areas have started turning gray
See you later goodnight, got no more candles to light
Yo its time to move along cause baby something isn't
right
Still I'm glad I met you, its too bad you screwed it up
The only thing I regret is that I didn't get to (fuck)

[Chorus]

{*spoken till finish: 'I was blind and now I see'*}
