I see the sun when I see just your smilin' face
I soar, I fly, I float like I'm in deeper space
But all of these are just illusions in my mind
Reality's that you can never be forever mine

I know this feeling's very wrong
I don't know where I should belong
Could I be with you till forever?

I can't believe it isn't true
Just make believin' I'm for you
Should I just stop to ease the pain?
Or should I keep on standing in the rain?

I know that you and I can never be together
I tried to face the truth to make myself feel better
But still these feelings wouldn't easily leave my heart
Forgetting won't be easy and it's tearing me apart

I know this feeling's very wrong
I don't know where I should belong
Could I be with you till forever?

I can't believe it isn't true
Just make believin' I'm for you
Should I just stop to ease the pain?
Or should I keep on standing in the rain?

No, I won't shed a tear
But I cry inside whenever you are near

Oh no I can't believe it isn't true
Just make believin' I'm for you
Should I just stop to ease the pain?
Or should I keep on standing in the rain?

Should I just stop to ease the pain?
Or should I keep on standing in the rain?
