The whole world
Seems to be on a bad drug
Chasing down a narrow street
Seems to get fucked
But except for me
I stand apart

Swallow... swallow... swallow
The control drug!
Control drug, taking control of me! (3x)
C'mon!
Control drug! (3x)
Control drug, takes control of me
Takes control of me

I remember the sense of war (2x)
And do we the hell die on tomorrow joy
That we love so much

Swallow the control drug (3x)
Control drug, taking control of me! (3x)
We swallow the control drug! (2x)
