If there's a star for everyone  
Where is my star tonight?  
I found the dream that someone lost  
Somewhere in the night  
There is a place inside of me  
When no one else can go  
And when I find out where it is  
I will let you know

Somewhere in the night there is a light  
That takes us on the journey he had blent  
And then we'll understand  
That when we give, we learn to love and live in peace  
together  
Somewhere in the night  
Somewhere in the night

There is a place beyond the star  
Where everyone can go  
And when I find out where it is  
I will let you know

Somewhere in the night there is a light  
That takes us on the journey he had blent  
And then we'll understand  
That when we give, we learn to love and live in peace  
together  
Somewhere in the night there is a light  
That takes us on the journey he had blent  
And then we'll understand  
That when we give, we learn to love and live in peace  
together  
Somewhere in the night  
And then we'll understand  
When we give, we learn to love and live in peace  
together  
Somewhere in the night  
Somewhere in the night  
I found the dream that someone lost
