### "Search My Heaven"

Visit "[Search My Heaven](#)" on MotoLyrics.com

Yesterday my life was cold and empty  
All my hope was gone  
And every time I tried a new romance It always turned  
out wrong  
And then you came along  
To light up my life like a candle so bright  
Yes you came along  
And give me a lifeline, just at the right time

I can't help but love no one but you  
And I could search my heaven  
No one in this universe will do Whoa-whoa

I was drowning in a sea of pity  
Love had passed me by And then you came along  
You got my attention Divine intervention  
Yes you came along  
As quiet as a church mouse And bright as a lighthouse

I can't help but love no one but you  
And I could search my heaven  
No one in this universe will do  
Now were together I can't help but love no one but you  
Whoa-whoa

You've given me a higher love,  
You helped me to understand  
You got me reaching for the stars above  
You give me a reason to live Yeaaaaahhhh!

Yesterday my life was cold & empty now I just wanna  
stop ?..and thank you

Chorus etc???
