You're too old and too smart  
Not to listen to Captain  
And I am too old and safe  
Not to stick my big mouth in.

So stop it already  
And just think of something else  
And if you get really skinny and weird  
You got fat, man

Hey Boku  
We all think you're so cool  
So stop smoking cigarettes  
And stay above ground

Hey Boku  
We all think you're so cool  
So stop smoking cigarettes  
And stay above ground

Its understood that you like it  
And I understand why  
But it's a particularly horrible  
Way to choose to die

You hate to puke  
Yet you induce  
Nausea at the very end  
You potentially do that to your bank  
And you flush it down the ends (?)

Hey Boku  
We all think you're so cool  
So stop smoking cigarettes  
And stay above ground

Hey Boku  
We all think you're so cool  
So stop smoking cigarettes  
And stay above ground
