My life is easy
My life ain't hard
I spend all day in my fucking back yard
I ain't go not money and I don't care
My parents let me use their credit cards

I Ain't got nowhere to go so I'm movin on the street
see people say i got no ambition
But I least i give a shit about the stuff i eat
yea i care about nutrition

Tried to get a job at the retail store, but I could not
stand the competion
so I spend all my time at hanging out at the shore,
giving myself a skin conditon

I Ain't got nowhere to go so im movin on my feet
People say I got no ambition
Well at least i give a shit about the stuff I eat
Yea i care about nutrition

Yea i guess i get upset when i see on the tv all the
people in this world that are starving
Well there is nothing in this world that can come and
bother me when i smell the turkey that is carving
I am starving!! Moses I 'm starving!

My folks say I gotta get myself a job and they ain't
gonna support me
All lam to them is just a lazy slob why is it that they did
not abort me? whoo!

I guess I must hang out on broad and south
living by my intuition
well at least I give a shit what i put into my mouth
yea i care about nutrition

Nutrition is good for me
