May I Take A Giant Step (Into Your Heart) ?

I remember how it started
On a sunny summer's day
I was looking out my window
All the kids were out to play

Then she said "Hey, let's play may I" ?
Out into the street I came
Ever since that sunny morning
Nothing has been quite the same

May I take a giant step into your heart
May I give you love and sweet affection
May I take a giant step into your heart
So that you will look in my direction
May I take a giant step into your heart ?

Though I may be getting older
Play I still my favourite game
Girl I gotta have information
If I need to be the same

Show me if you really want me
Show me if you really care
Give me just a little sign girl
To make me feel you want me near

May I take a giant step into your heart?

Organ solo

May I take a giant step into your heart?

May I take a giant step into your heart?
