no time is like this time should we make a call tonight
could you do me a solid, will you nollie said he'd be
here
said he'd be here, nollie's coming could you do me a
solid
will you and so we set on multiple fire we should stop
cause
I'm not getting higher
going in again
I can't cover it
get in your car 25 minutes
could you do me a solid, will you nollie said he'd be
here
said he'd be here, nollie's coming could you do me a
solid
will you and so we set on multiple fire I'm just shocked
cause we're not getting higher
hey kid, hey kid what's happening what's going on
tonight
could you dome a solid, will you, no, I won't look into
the sun again
well I detect a blue pathfinder eject the core and
lighten up the
payload. time's up and now you got to go
I hope you get home safe in the taurus.
