Like staring into light  
Sometimes there is hard to see  
What separates you and me  
And somewhere under the weather  
I could be better off without  
The goodbyes left in letters never sent

Let's save now for later  
And let the minutes fade away  
Pretend that we never said goodbye  
Let your voice linger  
Be my sinking afterthought  
Maybe you are What I need

Singing honest now I think that I saw what was missing  
A minute, it was gone  
Time moves slower now  
There is more in every second spent holding on

Watching you singing Sitting on the floor  
Singing about a little less  
Sorrow than before  
I love the second chances and how you never run out

Better than me In every way  
And I won't let us disappear  
Like two ships in the night  
Slipping quietly  
Out of sight

Singing honest now  
I think that I saw what was missing  
A minute, it was gone  
Time moves slower now  
There is more in every second spent holding on

oooh  
Singing honest now

Singing honest now I think that I saw what was missing  
A minute, it was gone  
Time moves slower now

There is more in every second spent holding on

oooh

Time moves slower now

There is more in every second spent holding on
