We always say "just friends" .
We don't have to meet , it never ends, and time can
pass.
But you are the first I call, when I am alone, and cold a
small and scared within.
And lately I've been dreaming, the strangest kind of
feeling .

How about you and me ?
Are we to close to see ?
How about you and me ?
How perfect that could be .

We alway say "just friends" and I don't know how this
ting will end.
If i should tell that lately I've been dreaming the
strangest kind og feelin .

How about you and me ?
Are we to close to see ?
How about you and me ?
How perfect that could be .

You got to take command.
You got to stop complaining about the thing i life that
don't come easy.
Just go and make it right, sometimes you got to fight.
Because love, it don't come easy.

How about you and me ?
Are we to close to see ?
How about you and me ?
How perfect that could be .

You got to take command.
You got to stop complaining about the thing i life that
don't come easy.
Just go and make it right, sometimes you got to fight.
Because love, it don't come easy.
