[Chorus:]

We don't need your ideologies
Our needs and our love
We won't ever put on chains

Since the day we are born {we're learning}
To oppress our emotions so they will fit into norms
Monogamy, heterosexuality and their fucking gender
roles
Let's tear them all to the ground
Together we'll break out!
Together we'll break out!

We will break free!
Deconstruct sexism, the complete homophobe society
And your rules... , we will never follow, yeah

Socialised through lies our whole lives -
No more! Break out!
We've got to bring it to an end
